## Thursday 5<sup>th</sup> March 2015

I would like to thank all who entered giving me a lovely selection of dogs to go over. In general I think the breed is in good shape and I was delighted with my eventual winners in all classes. We do however, still have a problem with front angulation and upright shoulders. Some exhibits were lacking the length of upper arm that is necessary to get the correct layback of shoulder needed to achieve the reach and ability to cover the ground easily when on the move.
